Carter's Spanish Mixture.
THE GREAT PURIFIER OF THE BLOOD!
THE BEST ALTERNATIVE KNOWN
No a Part of Mercury in it!

An infallible remedy for Scrofula, King's Evil,
Rheumatism, Obsolete Cutaneous Eruptions,
Pimples or Pustules on the Face, Blotches, Boils,
Age and Fever, Chronic Sore Eyes, Ring-
worm or Tetter, Scalded Head, Enlargement
and pain of the Bones and Joints, Salt
Rheum, Stubborn Ulcers, Syphilis,
Disorders, and diseases, arising
from an impure use of Mer-
cury, Impudence in Life, or
Impurity of the Blood.

This great purifier of the blood, and Purifier of
the Blood is now used by thousands of grateful patients
from all parts of the United States, who testify that
it is the most remarkable cure performed by the great
of all medicines, Carter's Spanish Mixture.
Neuralgia, Rheumatism, Scrofula, Eruptions of the
Skin, Liver Disease, Fevers, Ulcers, Old Sores, Af-
fections of the Kidneys, Chronic Discharges of the Urine,
Female Complaints, Pains and Aching of the Bones
and Joints, are speedily put to flight by using this
inestimable remedy.

For all diseases of the Blood, nothing has yet been
found to compare with it. It cleanses the system of
all impurities, acts gently and efficiently on the
Liver and Kidneys, strengthens the Digestive
tone to the stomach, makes the skin clear and healthy,
and restores the Constitution enfeebled by
disease or broken down by the excess of youth, to
its pristine vigor and strength.

For the diseases of FEMALES it is peculiarly ap-
plicable, and wherever it has become known, it
is highly prized with the happiest effects. It
invigorates the weak and debilitated, and imparts
elasticity to the worn-out frame, clears the skin, and
leaves the patient fresh and healthy; a single bottle
of this inestimable remedy is worth all the so-called
Sarsaparilla in existence.

The large number of certificates which we have
received from persons from all parts of the United
States, is the best evidence that there is no humbug
about it. The press, hotel keepers, magistrates,
physicians, and public men, well known to the com-
munity, all add their testimony to the wonderful
effects of this Great Blood Purifier.

Call on the Agent and get an Almanac, and read
the details of the cure. The Almanac, by Carter's
Spanish Mixture, (in most cases) where every thing
else has signally failed. The limits of an advertise-
ment will not admit of further description.

CAUTION.
Carefulness should be observed, but more particu-
larly when the health is at stake. Since these
Bitters have, from their medical qualities, become
so popular, there have been many cheap imitations
called Stomach Bitters, and often represented to be
the same in virtue as Dr. Hostetter's, palmed upon
the public. Beware of these cheap imitations. Our
Bitters are put up in square quart bottles, and
covered with the patent metallic cap, stamped with
Hostetter's Stomach Bitters, and Dr. J. Hostetter blown
on the glass. All others are imitations.

PURIFY THE BLOOD.
Moffat's Life Pills
PHENIX BITTERS,
FREE FROM ALL MINERAL POISONS.

THE great popularity which *Moffat's Life Pills* and
Phoenix Bitters have attained, in consequence
of the extraordinary cures effected by their use,
renders it unnecessary for the proprietor to enter into
a particular description of their medicinal virtues or
properties. Having been more than twenty years before
the public, and having the united testimony of more
than a million of grateful patients, who have been
restored to the enjoyment of perfect health by them, it
is believed that their reputation as the best vegetable
purgative now before the public, and as the best
remedy for all the various diseases of the blood, is
almost everywhere in the United States. There are
many who are ready to testify to their effec-
tiveness in removing disease, and giving to the whole
system a healthy and vigorous action.

In cases of SCROFULA, ULCERS, OR Eruptions of
the skin, the operation of the Life Medicine is
truly astonishing. It purifies the blood, and gives
it a healthy and vigorous action, and thus removes
all the various diseases of the blood, by their puri-
fying effects on the blood. FEVER and AGUE, DYSPEPSIA,
DROPSY, PLAZA, and in short most diseases, soon
leave the system, and the patient is restored to health
and vigor, and his system is made much more
resistant to future attacks.

MESSAGE OF JOSEPH A. WRIGHT
GOVERNOR OF THE STATE OF INDIANA
Delivered before the General Assembly,
JANUARY 9, 1857.
Gentlemen of the Senate
and of the House of Representatives.

In the name of the people of this State, I wel-
come you, as their appointed servants, assembled
under the constitution and the laws to guard
their rights and to promote their welfare. The
care of national policy and foreign diplomacy
demand nothing of your immediate attention—
These grave and wide interests are wisely
committed to other hands, and to you are left
the agricultural, educational, and other civil
and industrial interests of your own homes and
families. Let no differences of opinion, concern-
ing national policy, however actively developed
amid recent events, mar the fraternity and uni-
animity with which you address yourselves to
the business of promoting the internal interests,
and improving the domestic policy of your own
State.

The election of a chief magistrate of this great
nation, evoked, during its pendency, an unusual
degree of popular excitement, attended with
calmness and fear. But the crisis came and has
passed. The silent ballots of four millions of
citizens have assumed popular excitement and
disorder, and the people have returned to their
usual avocations, and find peace and rest in
their domestic interests and pursuits—looking
for good, where many have prophesied only evil,
and determined to sustain the right, by whatever
hand it is administered. In like manner, gentle-
men, may the excited discussions in which you
have been so long engaged, be forgotten in the
calmness and unity with which you here direct
your thoughts and efforts to the security and ad-
vancement of our domestic prosperity.

It affords me pleasure to say that, during the
past two years, the general condition of the state
has been that of peace and prosperity. All our
various branches of agriculture, manufacturing and
commerce, are in a prosperous condition; our
state maintains a growing and commanding po-
sition among her sisters of the confederacy; the
laws with their benign influence are respected
among our people; and though during the past
year, the agricultural interests of some portions
of the state have suffered from the drought of the
season, yet we have ample cause to render thanks
to a superintending Providence for the innumera-
ble blessings which have been bestowed on our
land and people.

The first subject that demands the considera-
tion of the representatives of the people, is that
of the financial condition of the state. It is
a subject of the highest importance, and one
which to know that economy has been observed
in your public expenditures; the interest upon
your public debt, promptly discharged; and the
reduction of the principal not overlooked.

The amount of the ordinary expenses of the
State Government, for the year ending October
31, 1855, was \$1,476,611. The same for the
year ending October 31, 1856, was \$1,522,688.
The excess of expenditure for the year 1855, over
that of 1856, was caused mainly by the expenses
of the expenses of the Legislature, and matters
necessarily connected therewith. The expenditure
of \$59,222, 68, for the ordinary annual ex-
penses of the government, for the year 1855, was
four hundred thousand inhabitants, is believed to
be less than the ordinary annual expenditures
of any of our sister States.

Among the first subjects which demand your
prompt attention, is that of providing by law
for the appropriation of the land lottery funds,
for the purpose of the purchase of land for the
benefit of the State. The propriety of this
manifest, that I trust your first action will en-
able the county officers to commence this work
before the expiration of your session.

In accordance with the provisions of the
charter of the State Bank of Indiana, its corporate
powers were renewed, and the land lottery funds
were placed in the hands of the State Bank, for
the intervening two years to be occupied in
winding up and liquidating its affairs. The
State, as joint owner, is deeply interested in the
safe and successful closing up of its institution.
In the main, it has been managed with prudence
and sagacity, and with a view to the profits of
the stockholders and the general interest of the
State. The State Bank has experienced the
benefits of the State Bank. In all these cases, when
the public has enjoyed the confidence of the
public in its organization, the rights of the
whole people were secured; the provisions of the
charter and the practice under it, strictly guard-
ing against every species of favoritism. Books
for the subscription of stock, were promptly
opened for the purpose of the State Bank, and

LETTER FROM HON. JOHN M. BOTT OF VIRGINIA.
Richmond, Va., July 9th, 1856.
Messrs. Wm. S. Bess, & Co.
Gentlemen:—Considerations of duty to the affected class prompt me to send you the following testimonial to the great value of CARPENTER'S NIGRIST MIXTURE for that almost incurable disease, Scrofula.

Without being disposed, or desiring it necessary, to go into the particulars of the case, I can say that the astonishing results that have been produced by that medicine, on a member of my own family, and under my own observation and superintendence, after the skill of the best physicians had failed, fully justify me in recommending it to all who may be suffering from that dreadful malady.
I do not mean say that it is adapted to all conditions, or that it will afford the same relief in all cases; for, of course, I can know nothing about that—but from what I have seen of the effects, I would not hesitate to use it in any and every case of Scrofula, with persons for whom I felt an interest or over whom I could exercise influence of control.
Respectfully yours,
JNO. M. BOTT.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath when by using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate their friends will never mention it. Pour a single drop of "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cents bottle will last a year.
A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it soft and rosy. Wet a towel, pour on it two or three drops, and wash the face night and morning.
SHAVING MADE EASY.—Wet your shaving-brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well, and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only fifty cents.
For sale by all Druggists.

THE great popularity which Moffat's Life Pills in
Phenix Bitters have attained, in consequence
of the extraordinary cures effected by them, has
rendered it unnecessary for the proprietor to enter into
a particular analysis of their medicinal virtues and pro-
perties. It is sufficient to say that more than twenty years before
the public, and having the "nited testimony of more
than Three Millions of persons who have been restored
to the enjoyment of perfect health by them, they
believe in their reputation as the most valuable
medicine now before the public, admit of no dispute.
In almost every city and village in the United States
there are many who are ready to testify to their effi-
cacy in removing disease, and giving to the whole
system renewed vigor and health.

In cases of SCROFULA, ULCERS, CURRY or Eruptions
of the skin, the operation of the Life Medicine is
truly astonishing, often removing in a few days every
trace of the disease, and leaving the patient free from its
torturing effects on the blood, Fever and Ague, DYSPEPSIA,
DROPSY, PILES, and in short most all diseases, soon
yield to their curative properties. No family should
be without them, as by their timely use much pain
and expense may be saved.

ORFF'S

MESSAGE OF JOSEPH A. WRIGHT

Governor of the State of Indiana
Delivered before the General Assembly,
JANUARY 9, 1857.

Gentlemen of the Senate
and of the House of Representatives.

In the name of the people of this State, I wel-
come you, as your appointed servants, assembled
under the constitution and the laws to guard
their rights and to promote their welfare. The
care of national policy and foreign diplomacy
demand nothing of your immediate oversight—

These grave and world wide interests are wisely
committed to other hands, and to you are left
matters of more domestic and peaceful concern—
the agricultural, educational, and other civil
interests of your own home and State.

Let no difference of opinions, concern-
ing national policy, however actively developed
amid recent events, mar the fraternity and uni-
animity with which you address yourselves to
the business of promoting the internal interests,
and improving the domestic policy of your own
State.

The election of a chief magistrate of this great
nation, evolved, during its pendency, an unusual
degree of popular excitement, attended with
zeal and fervor. But the crisis came and has
passed. The silent ballots of four millions of
freemen have assumed power, and the people
have chosen their representatives to the National
Assembly, and find peace and rest in their
domestic interests and pursuits—looking
for good, where many have prophesied only evil
and determined to sustain the right, by whatever
hand it is administered. In like manner, gentle-
men, you have participated, be forgotten in the
eagerness and unity with which you, here direct
your thoughts and efforts to the security and ad-
vancement of our domestic prosperity.

It affords me pleasure to say that, during the
past two years, the general condition of the State
has been that of peace and prosperity.

On a review of the late elections, it is apparent to all, that our laws have failed to preserve the purity of the ballot box. While there is a difference, in regard to the magnitude of the effort's made to defeat public sentiment in favor of a registration of voters, but the practical effect of registration laws in other States, have failed to convince us of the adoption of such laws to our country. The officer running the registry is left to be imposed upon as the judges of our elections and as wide a field for fraud and corruption would be opened, as exists under the present system.

A remedy for illegal voting will be found, by requiring an actual residence in the township, or election precinct, of not less than sixty days prior to the time of voting, and by the multiplying of election districts; thereby avoiding the collecting of large bodies of voters at one place, and lessening the facilities of fraudulent voting. Where this is done, the danger of a single election, there will be little danger of excited and angry feeling; the right of suffrage will be exercised with more freedom and deliberation; and the voters will be more generally known to each other and to the officers of the election. The penalties for illegal voting and for aiding and abetting thereof, either by solicitation, in fraudulency, or trans-pretation, shall be largely increased.

The practice of betting upon elections is a great and growing evil, tending more than any other cause, to destroy the purity of the ballot-box and the practice should be visited with the severest penalties. The history of the past year has satisfied us that, unless some effectual means can be adopted to protect the elective franchise from corruption and degradation, our institutions will soon be as the property of an unfeeling and irresponsible class. The recent act of the Legislature, which forbids any individual will be before next year. It will be remembered that the T. act have caused the standing timber on Birch Creek Reserve, in Italy county, to be removed, at a very heavy expense; thus alleging all can be of complaint on the part of the inhabitants residing in the vicinity of that tract. Though the best medical authorities reported under a law of the Legislature, that the standing timber would not prove injurious to the health of

[illegible]

As the only cause of complaint is now removed, may we not hope that the people in the neighborhood of this Reservoir, as well as all other citizens will refrain from further hostility and violence to the works and structures of the City and State, and will be content to leave to the Board of Prison Commissioners the right to consider the Reservoir, and that if they adopted the mode of its construction from the original plans and surveys of the State authorities, and by the examples of other States, are matters which admit of no doubt. That the persons engaged in the destruction of the Reservoir, were misled by the belief that the health of the country was endangered by the fumes remaining on the submerged land is equally clear and undoubted, and nothing could be said to a citizen that this mistaken action would be a pollution of it.

It will be seen by reference to the report of the Trustees, that there is a serious diminution of the receipts of toll on the Canal, as compared with the income of 1854, and the preceding year. By the report of 1855, made to this department, it will be observed that the tolls for the year 1855 fell short of the tolls for the year 1854, by more than five thousand dollars, of the income of the previous year; and that the receipts for the year just closed, show a still further decrease of twenty-six thousand dollars below the revenue of 1855—making, in two years, an aggregate decrease of sixty-six thousand dollars.

The report of the directors and officers discloses the fact that more than one third of the present inmates of the Prison would be proper subjects for the discipline of the contemplated House of Refuge. I commend to your special consideration this valuable report, which exhibits, fully, the details of our prison discipline. No appointment of a new institution has been made. Thus far, the only one performed has been the Rev. Leroy Wood, the former chaplain. The list of pardons and remissions of fines and forfeitures is herewith commended.

Our Board of Institutions most deeply commands the respect and confidence of the people. Their several reports will present you with information, in detail, as to their expenditures, progress and management. They are entitled to the confidence and respect of the people.

The Canal is the largest artificial water communication in the United States and has at length become a celebrated work of India. As a check on high and exorbitant charges, by other and competing modes of transportation on the part of India and a direct interest in the maintenance of the Wabash and Erie Canal, and in its successful results as a means of revenue to those for whom it is held in trust. The contract between the State and her creditors, was fairly and deliberately made: and it is the highest duty of the State to keep and perform faithfully, all her obligations, and to require the same on the part of others.

Agricultural improvement is visible in every portion of our State. The action of the General Assembly, in making a small appropriation to aid this cause, in exciting a more beneficial influence. A large majority of the counties have well organized agricultural societies, whose delegates are now in session with the State Board of Agriculture, and throughout our State, the increasing interest manifested in advancing the science of agriculture, and other branches of home industry and stock is rapidly augmenting the amount and value of our domestic products. It is suggested, that it would be productive of good results, to amend the present law, so as to make the Privy deities of county societies, or other delegates appointed by them, constitute the State Board.

Trade, has received at home, and abroad. But forbad, that we should so far forget what is due to our own reputation, to say nothing of justice and humanity, as to renew and endorse a crime that our fathers in the purity of our government called by the right name, slavery.

The subject of African colonization is one of deep interest to our people, and I earnestly renews the usual appropriations to aid this great cause of humanity, which promises so much good to the colored man, as well as permanent peace and harmony in our own Commonwealth.

The frequent communications and the amount of business transactions, which exists between the citizens of the United States and the subjects of foreign governments, have induced several of the

Having, on several former occasions, urged upon the Legislature the duty of providing for a thorough scientific survey of the geological character of the State, I regret that my recommendations upon a subject of such vital importance to the prosperity of the people, have failed to secure the proper authority for such a survey. While the resources of our sister States have thus been developed, and immigration and wealth thereby attracted to them, we have neglected to lay bare the hidden treasure which Nature has garnered up; and, but for accident or individual enterprise, we should have remained in the most profound ignorance of the mineral resources of our State. Enough has been ascertained to convince us of their existence and extent, but the land has remained unexplored to show their value, and their localities.

Within the last year, discrepancies have been

made of extensive beds of iron ore. In Perry county, in the immediate vicinity of formations of coal and limestone; and individual explorations, in other portions of the State, have been equally productive. It therefore earnestly requests the reconsideration for an appropriation for a thorough geological and topographical survey of the State.

It has long been providing means for the necessary important work. The Governor's Message almost occupies two columns this week; but we may say for this. It is worthy the space and will be read with interest by all. It is a most admirable production, and favorable view of the condition and policy of our state, and contains recommendations which might have been adopted by the Legislature. There are others of our county officers who appear equally oblivious of the duty they owe the democratic party, and use their official patronage rather with a view to their own feelings of interests than to the good of the party which placed them in office. 'Services to that party' do not weigh as much with them as personal subserviency. The democracy should see to this.

HOSKETT'S BITTERS.—The celebrity that this excellent preparation has gained in the last few years, is beyond belief. The best physicians in the United States endorse it, and recommend it to their patients in all cases of dyspepsia, indigestion and loss of appetite. It is used as a stomach tonic by nearly every family in the United States, and no family should be without it. It requires no addition of spirits.

 Economy by Miller, Orton, & Mulligan, Auburn
 and New York.—We have been favored by the
 publishers with a copy of this truly excellent
 and valuable book, and after a careful exami-
 nation of its contents, candidly recommend it to
 our readers as the best work of the kind which
 has come under our observation. Every young
 housekeeper should by all means possess a copy,
 and the more experienced will also derive benefit
 from its teachings. It contains good *economical*
practical recipes for all kinds of cookery, pies,
 cakes, puddings, preserves, sauces, pickles, mas-
 vines, &c. &c., and much good advice and in-
 formation in domestic economy and housekeep-
 ing generally. Every housekeeper should be
 furnished with a copy of this book.

*Astonishing effect of one bottle in an
 aggravated case of Dyspepsia.*
 PHILADELPHIA, March 20, 1855.
 Dear Sir:—During the last five years I have been
 afflicted with Dyspepsia in its most aggravated form
 and have used, without receiving any benefit there-
 from, every remedy recommended for that disease.
 In fact, I was 'afflicted so badly that on many occa-
 sions I was *greatly* danger of dying from suffocation,
 in consequence of the rise of matter in my throat,
 all my efforts for relief were in vain. I was at last
 induced, through the recommendation of several of
 my friends, to try 'Hoffand's German Bitters,' and
 I saw by the amount of relief I have received
 from the use of only one bottle, it is astonishing, and
 compels me to say that I would not be without the
 Bitters for any money, as I am now, through their
 use, in much better health than I have known for
 many years.
 Respectfully yours, ELIZABETH GAUL,
 To Dr. C. M. Jackson. No. 12, Carter's Alley.
